

QUALITY POLICY

- Meeting the requests and expectations of our customers fully and completely;
- Carrying out our activities in compliance with the standards, laws, and legislations which are in line with our activities;
- Attaining the predetermined quality targets and reviewing such targets continuously;
- Training our personnel continuously in order to attain the predetermined targets and in order that they can participate in the system effectively;
- Protecting our natural environment by selecting the proper materials and techniques;
- Providing a proper, effective Quality Management System and improving it continuously;
- Making our decision, production, and implementation processes more effective and efficient and become integrated with our suppliers and customers.
